Mixing Cups | Sample Cups

We offer a complete new line of disposable and reusable cups for all requirements and applications for the laboratory industry. These Sample cups and Mixing cups are made of **Bio Sugarcane Material**. No fossil raw materials are used and the cups are 100% recyclable. Compatible with most to mix materials. To be 100% sure, we advise to ask for some **FREE** samples to test the Green Bio Cup® together with your product. Have a green day.

Applications : Paints, Ink, Cosmetics, Adhesives, Resin, Food, Agriculture, Home Care.

- Conical
- Flat bottom
- No weldings
- White transparent
- Graduation included
